

Gym a great place

To the editor:

I am parent of six kids. I'm from a remote reservation called Marten Falls.

The reason I moved away from the reservation is for my children for schooling and more things for them to do. We have been living here in the city for 10 years now.

We are so happy to be part of your town. A few years ago, when my kids walked by the Underground Gym they thought they should go check it out.

That was about three to four years so far. To this day my children love going there.

I go there with them sometimes, but I trust Peter Panetta with them. I am grateful for something like this. Thanks.
