some questionable priorities

The City of Thunder Bay Appears to have no problem helping out the Community Auditorium, to the tune of \$500 thousand per year when I was on Council, and Magnus Theatre and the Thunder Bay Symphony

Priorities, Humanity and Common Sense

Orchestra to the tune of approximately \$100 thousand per year, but has trouble supporting The Underground Gym on Simpson Street for even a dime.

The Gym is responsible in large part for keeping potential trouble off the streets by providing not only exercise for their clients but also food, clothing and a variety of activities for all children involved. This saves the City's policing budget a substantial amount of money. A \$20 thousand gift from the City, a mere pittance of the City budget, would go a long way to helping this organization sustain itself.
